sible to revive the glory of these old lamps . . . a method that adapts these treasures to the new mode without sacrificing any of their oldtime charm, yet faithfully preserving the effect of a burning lamp.

THE NO. 2 ADAPTER . . . The No. 2 Adapter replaces the No. 2 standard burner on oil lamps. Illustrated here with clear Candylbeme Lamp. May also be used with Candle Flame Lamps.

No. 2 Burner Adapter with turn-knob switch . . $1.50

Candylbeme Lamps, each 50¢

WICK-O-LITE CLEAR LAMP. This lamp is especially made for use with the the Wick-O-Lite Adapter shown above. It burns with a very soft, low light and the simulation to an actual burning lamp, turned low, is amazingly realistic.

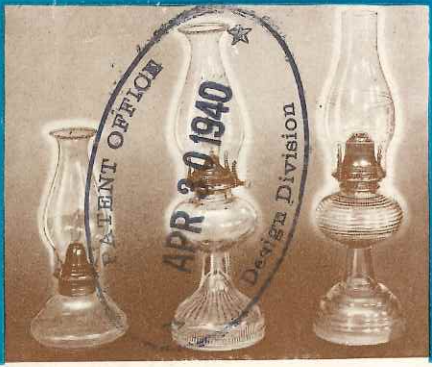
Wick-O-Lite Lamps, each 50¢

THE ELECTRIC WICK... a specially developed adapter for use with the Wick-O-Lite Lamp below. When lighted the effect is of an actual burning oil lamp with the wick turned down. Can only be used with the Wick-O-Lite Lamp.

Wick-O-Lite Adapter for No. 1 or 2 standard burner with turn knob switch . . . $1.50

COMPLETE WITH CORD. Prices of all adapters *include* a full length lamp cord with plug.

WICK-O-LITE is protected by the U. S. Patent Office Trade Mark Register No. 358,256 for Nalco Adapter devices for substitution for the burner elements of oil lamps to convert them into electric lamps.



So Easy . . . and Inexpensive

to make electrified oil lamps with NALCO Adapters . . . .

Lamp Bases and chimneys can be purchased at almost any department store, variety store, hardware store, mail-order house, etc. With NALCO Adapters, it is not necessary to drill holes in lamp base or make any structural changes. Every home will be enriched by that atmosphere of quaint simplicity which an electrified lamp with a Nalco Adapter provides.

NALCO Adapters with standard (medium) base sockets for No. 1 and No. 2 burners may be used with standard Mazada lamps of 75 to 100 watts. These lamps make efficient reading and working lamps. NALCO Adapters are also available for Acorn, Hornet and No. 3 burner sizes—prices and details on request.
